

President's Letter

Dear Fellow STR Members and Attendees:

Welcome to the Society of Thoracic Radiology 2008 annual course and the Sanibel Harbour Resort & Spa. Dr. Jannette Collins has designed a course for all physicians with an interest in cardiopulmonary disease. Course lectures will cover coronary and cardiac imaging, pulmonary vascular imaging, and mediastinal and aortic disease. Lung cancer screening will be covered by those directly involved in the ongoing studies. The Scanlon symposium, one of the highlights of the meeting, will focus on the evaluation of interstitial lung disease, and our featured speaker, Dr. Jeff Galvin will talk on idiopathic interstitial pneumonias. The Felson lecture will be given by Dr. Leonard Berlin, a renowned expert in medico-legal issues. His lecture is entitled "Litigation Issues in Thoracic Imaging". We have sessions that will meet your needs including 3 sessions for ABR self-assessment modules (SAMs). We hope you have an enjoyable week in Ft. Myers.

Jud W. Gurney, MD

A handwritten signature in black ink, appearing to read "Jud W. Gurney". The signature is fluid and cursive, with a long horizontal line extending to the left.

2007-2008 President, Society of Thoracic Radiology
